

United Airlines Frequent Flyer Announcement on behalf of the Salina Area Chamber of Commerce

Have you given the United Airlines jet service at Salina Regional Airport a try yet?

We are fortunate to have United Airlines service at the Salina Regional Airport, operated by SkyWest Airlines. The dependability of the airline is superb, and the airfares are extremely attractive, even compared to other area airports.

With 75% of all airline industry revenue driven by business travel, making the experience, perks, and amenities for those traveling into and out of the Salina Regional Airport Best in Class is a top priority.

If you have Frequent Flyer miles on other airlines and that is holding you back from using the Salina Regional Airport, United Airlines may be able to match your Frequent Flyer status on that other carrier, so that you can use the local service without penalty! Under this scenario, you would keep your frequent flyer miles on the other airline, while United Airlines would start you in their Mileage Plus program at an equivalent level to that on the other carrier.

For more information, please contact Cheri Kirkpatrick at the ArkStar Group, Salina's air service consultant. Cherikirkpatrick@arkstargroup.com
