(January18, 2017)

Salina Airport Authority
M.J. Kennedy Air Terminal
3237 Arnold Avenue
Salina, Kansas 67401
(785) 827-3914 phone (785) 827-2221 fax

ORDINANCE NUMBER 17-10875

AN ORDINANCE APPROVING THE 2017 SALINA REGIONAL AIRPORT RULES AND REGULATIONS.

WHEREAS, pursuant to Salina Code Sec. 4-19 "Rules and Regulations," the Salina Airport Authority (SAA) is authorized to adopt and amend rules and regulations as necessary for the orderly operation of the Salina Regional Airport and which rules and regulations, after approval of the governing body, shall be filed in the offices of the city clerk, airport manager, and the SAA; and

WHEREAS, on January 18, 2017, the SAA Board of Directors approved and adopted the 2017 Salina Regional Airport Rules and Regulations which are necessary for the orderly operation of the Salina Regional Airport.

BE IT ORDAINED by the Governing Body of the City of Salina, Kansas:

Section 1. That Governing Body approves the 2017 Salina Regional Airport Rules and Regulations adopted by the SAA Board of Directors on January 18, 2017.

Section 2. Pursuant to Salina Code Sec. 4-19 "Rules and Regulations," the 2017 Salina Regional Airport Rules and Regulations shall be filed in the offices of the city clerk, airport manager, and the SAA.

Section 3. Pursuant to Salina Code Sec. 4-19 "Rules and Regulations," any person violating any of the 2017 Salina Regional Airport Rules and Regulations shall be guilty of a misdemeanor.

Section 4. Summary of ordinance for publication. This ordinance shall be published by the following summary:

Ordinance No. 17-10875 Summary

On February 27, 2017, the City of Salina, Kansas passed Ordinance No. 17-10875. The ordinance approves the 2017 Salina Regional Airport Rules and Regulations. A complete copy of the ordinance is available at www.salina-ks.gov or in the office of the city clerk, 300 W. Ash Street, free of charge. This summary is certified by the city attorney.

Section 5. Effective Date. This ordinance shall be in full force and effect from and after its adoption and publication by summary once in the official city newspaper.

Introduced: February 13, 2017
Passed: February 27, 2017

1. COMMON DEFINITIONS.

The following definitions are applicable to these Rules and Regulations, the Minimum Standards and policies adopted for or by the Salina Airport Authority, hereinafter referred to as "Authority", for the operation of the Salina Regional Airport "Airport". These definitions shall apply to these terms whenever used in these documents, unless expressly defined differently therein, whether or not the terms are capitalized.

1.1 Aeronautical Activity or Activities. Any activity or service that involves, makes possible, facilitates, is related to, assists in, or is required for the operation of aircraft or another aeronautical activity or which contributes to or is required for the safety of such operations.

The following activities, without limitation, which are commonly conducted on airports, are considered "Commercial Aeronautical Activities" within this definition: aircraft charter, pilot training, aircraft rental, sightseeing, aerial photography, aerial spraying and agricultural aviation services, aerial advertising, aerial surveying, air carrier operations (passenger and cargo), aircraft sales and service, sale of aviation fuel and oil, aircraft maintenance, sale of aircraft parts, and any other activities which, in the sole judgment of the Authority, because of their direct relationship to the operation of aircraft or the Airport, can be appropriately regarded as an aeronautical activity.

1.2 Aircraft. Means aeronautical devices including, but not limited to, powered aircraft, gliders, helicopters, parachutes, hang gliders, and balloons.

1.3 Air Operations Area (AOA). A portion of the Airport designated and used for landing, taking off, or surface maneuvering of Aircraft. There are two areas of the AOA, the movement area and the non-movement area. These areas are shown on the Airport Layout Plan (ALP).

1.4 Aircraft Maintenance. Means the repair, adjustment, or inspection of aircraft. "Major Repairs" means major alterations to the airframe, power plant, propeller, and accessories as defined in 14 CFR Part 43. "Minor Repairs" means normal, routine annual inspection with attendant maintenance, repair, calibration or adjustment or repair of aircraft and their accessories.

1.5 Airframe and Powerplant Mechanic (A&P Mechanic). A person who holds an aircraft mechanic certificate with both airframe and powerplant ratings, issued by the FAA under the provisions of 14 CFR Part 65.

1.6 Airport. The Salina Regional Airport, owned and operated by the Salina Airport Authority, including all portions thereof.

1.7 Airport Manager. Refer to 1.26 "Executive Director."

1.8 Airport Layout Plan (ALP). The current FAA-approved drawings depicting the physical layout of the Airport and identifying the location and configuration of current and proposed runways, taxiways, taxilane, buildings, roadways, utilities, nav aids, apron, airport operations areas, etc.

- 1.9 Air Terminal.** The M.J. Kennedy Air Terminal.
- 1.10 ATC.** Air traffic control.
- 1.11 ATCT.** Air Traffic Control Tower.
- 1.12 ARFF.** Aircraft Rescue and Fire Fighting.
- 1.13 Apron.** Those paved areas of the Airport within the AOA designated for the loading or unloading of passengers or cargo, servicing, or parking of aircraft.
- 1.14 Authority.** The Salina Airport Authority created by the City of Salina pursuant to K.S.A. 27-315 and ordinance No. 6854 to own, develop and operate the Salina Regional Airport.
- 1.15 Based Aircraft.** Any aircraft utilizing the Airport as a base of operation (other than occasional transient purposes) with an assigned tie down or hangar space on the Airport, or on adjoining property which has direct taxiway access to the Airport.
- 1.16 Board.** The Airport Authority Board of Directors appointed by the Salina City Commission pursuant to Salina Code section 4-17.
- 1.17 Building.** The main portion of each structure, all projections or extensions there-from and any additions or changes thereto, and shall include hangars, garages, outside platforms and docks, carports, canopies eaves and porches. Paving, ground cover, fences, signs and landscaping shall not be included in this definition.
- 1.18 City.** The City of Salina, Kansas.
- 1.19 CFR.** Code of Federal Regulations.
- 1.20 Commercial.** That which involves or makes possible earnings, income, compensation (including exchange of service), and/or profit, whether or not such objectives are accomplished.
- 1.21 Courtesy Vehicle.** Any vehicle used in commercial activity, other than a taxicab, to transport persons, baggage, goods, or any combination thereof, between the Airport and off-Airport businesses such as hotels, motels, or other attractions and the business establishment owning or operating such vehicle, the operation of which is generally performed as a service without direct costs to the passenger.
- 1.22 COW.** Certificate of Waiver for sUAS operations that deviate from certain provisions and limitations of 14 CFR part 107.
- 1.23 DHS.** Department of Homeland Security of the United States government.
- 1.24 Equipment.** All machinery, supplies, tools, trade fixtures and apparatus necessary to the proper conduct of the activity being performed.

1.25 Environmental Laws. Any and all laws, rules, regulations, regulatory agency guidance and policies, ordinances, applicable court decisions, and airport guidance documents, directives, policies (whether enacted by any local, state or federal governmental authority, or by the Airport) now in effect or hereafter enacted that deal with the regulation or protection of the environment (including the ambient air, ground water, surface water and land, including subsurface land and soil), or with the generation, handling, storage, disposal or use of chemicals or substances that could be detrimental to human health, the workplace, the public welfare, or the environment.

1.26 Executive Director. That person or his/her designated representative that is responsible for the administration and management of Airport property, operations, material assets, financial assets and employees. The term "Executive Director" is interchangeable with the term "Airport Manager", and shall have the same meaning and authority for purposes of federal, state, and local law.

1.27 Extremely Hazardous Substances. Any substance or material designated by the United States Environmental Protection Agency as an "extremely hazardous substance" under either Section 302 (a)(2) of the Emergency Planning and Community Right-to-Know Act ("EPCRTKA") (42 U.S.C. § 11002(a)(2)) or any other Environmental Law.

1.28 FAA. Federal Aviation Administration of the United States government.

1.29 FAR Part 135 Aircraft Charter. An operator who undertakes directly by lease, or other arrangement, to engage in on-demand air transportation for hire or compensation on an unscheduled basis operation in accordance with or exceeding the requirements of FAR Part 135.

1.30 Fixed Base Operator (FBO). Means an operator that maintains facilities at the Airport for the purpose of engaging in the retail sale of aviation fuels (AVGAS and Jet Fuel), Aircraft airframe and engine repair, and such other services as are required by Minimum Standards, or may be authorized under a lease or license.

1.31 Fire Code. The version of the Fire Code adopted by the City of Salina from time to time. Upon the effective date of these Rules, that was the Uniform Fire Code, 2003 Edition.

1.32 Flying Club. A non-profit operator organized for the primary purpose of providing its members with one or more aircraft for the members' personal use and enjoyment only.

1.33 Fuel Handling. The transporting, delivering, fueling, or draining of fuel or fuel waste products.

1.34 Hazardous Materials. Means any hazardous or toxic substance, material or waste, which is or becomes regulated by any local government authority, the State of Kansas or the United States Government. The term "Hazardous Material" includes, without limitation, any material or substance that is: (1) defined as a "hazardous substance" under appropriate state law provisions; (2) petroleum; (3) asbestos (4) designated as "hazardous substance" pursuant to Section 311 of the Federal Water Pollution Control Act (33 USC Section 1321); (5) defined as "hazardous

waste" pursuant to Section 1004 of the Federal Resource Conservation and Recovery Act (42 USC Section 9601); or (7) defined as a "regulated substance" pursuant to Subchapter IX, Solid Waste Disposal Act (Regulation of Underground Storage Tanks) (42 USC Section 6991).

1.35 Improvements. All buildings, structures and facilities, including, but not limited to, pavement, fencing, signs and landscaping constructed, installed or placed on, under or above any leased area by or with the concurrence of a lessee. Plans and specifications for all improvements must be approved by the City for conformity with its building and construction standards.

1.36 Landing. All flights landed at the Airport for revenue and non-revenue purposes, including, but not limited to, commercial, training, private, ferry and charter flights, except that there shall be excluded flights which return to the Airport after take-off due to an emergency.

1.37 Large Aircraft. An aircraft in excess of 12,500 pounds Maximum Certificated Takeoff Weight (MTOW).

1.38 Lease. A contractual agreement between the Authority and a person, granting the use of a defined ground area on the Airport for a term of years, and establishing conditions for its use.

1.39 License. A contractual agreement between the Authority and a person, granting a concession or otherwise authorizing the conduct of a commercial activity on the Airport, which is in writing and enforceable by law. A license may be a stand-alone document, or may be combined with a lease into one document.

1.40 Master Plan. An assembly of appropriate documents and drawings covering the development of the Airport from a physical, economical, social, and political jurisdictional perspective and adopted by the Authority, a copy of which is on file and available for inspection in the Airport office, and any amendments, modifications, revisions, or substitutions thereof. The ALP is a part of the Master Plan.

1.41 Movement Area. Runways, runway safety areas, taxiways, taxilane, taxiway safety area and other areas of the Airport that aircraft use for taxiing/hover taxiing, air taxiing, takeoff and landing, exclusive of loading ramps and parking areas as shown on the ALP.

1.42 National Fire Protection Association (NFPA). All codes, standards, rules, and regulations contained in the Standards of the National Fire Protection Association, as may be amended from time to time, and are incorporated herein by reference.

1.43 Non-Commercial. Not for the purpose of securing earnings, income, compensation (including exchange of service), and/or profit.

1.44 Non-Movement Area. Taxilanes, aprons and other areas not defined as movement areas as shown on the ALP.

1.45 Operator. Means any person based on the Airport and providing one or more commercial aeronautical services at the Airport. All Fixed Based Operators (FBOs), Retail Self Service Fueling Operators (RSFOs), and Specialized Aviation Service Operators (SASOs), are defined as operators, per se.

1.46 Person. Any individual, firm, sole proprietorship, corporation, company, limited liability entity, association, joint stock association, partnership, co-partnership, trust, estate, political body or other form of entity, and includes any trustees, receiver, assignee, or similar representative thereof.

1.47 Police. Means the Salina Police Department and the Saline County Sheriff's Office and other State and Federal agencies that have law enforcement jurisdiction over the Airport.

1.48 Principals. For corporations, the directors, officers and stockholders holding more than 10% of the company stock. For partnerships, all general and limited partners. For limited liability entities, all managers and members holding more than a 10% interest. For other entities, all those having authority to act for the entity, or being a 10% or greater beneficiary or interest holder.

1.49 Ramp. A paved area suitable for aircraft parking.

1.50 Repair Facility. A facility utilized for the maintenance, repair and overhaul of Aircraft to include airframe, power plant, propellers, radios, instruments and accessories. Such facility will be operated in accordance with pertinent FAA regulations.

1.51 Refueling Vehicle. Any vehicle used for fuel handling, including without limitation fuel servicing hydrant vehicle and hydrant carts.

1.52 Regulatory Measures. Federal, state, county, local, airport laws, codes, statutes, ordinances, orders, policies, rules, and regulations, including, without limitation, those of the United States Department of Transportation (USDOT), United States Department of Homeland Security, FAA, TSA, NFPA, Aircraft Rescue and Fire - fighting Standard Operating Guidelines, the Airport Certification Manual and Airport Security Plan, and these Rules; all as may be in existence, hereafter enacted, and amended from time to time.

1.53 Release. Any releasing, disposing, discharging, injecting, spilling, leaking, leaching, pumping, dumping, emitting, escaping, emptying, seeping, dispersal, migration, transporting, placing, and actions of similar nature, including without limitation, the moving of any material through, into or upon any land, soil, surface water, ground water, or air, or otherwise entering into the environment.

1.54 Restricted Area. Areas of the Airport posted to prohibit or limit entry or access by the general public. All areas other than public areas.

1.55 Retail Self Service Fueling Operator or RSFO. An operator that maintains facilities at the Airport for the purpose of engaging in the retail sale of self service AVGAS per the requirements of the Minimum Standards.

1.56 Run-up. Aircraft engine operation above normal idle speed, the purpose of which is engine maintenance or testing, but excluding engines operating for purposes of preparing for and taking off.

1.57 Salina FD. The City of Salina Fire Department.

1.58 Scheduled Air Carrier. Any operator who undertakes directly, or by other arrangements, to engage in air transportation for hire under FAR Parts 135, 121 or 380, on a scheduled basis, over specific routes to provide scheduled passenger service. Conditions, requirements and standards for this type of commercial aeronautical activity shall be governed by the terms of an airport use agreement, and are not subject to the requirements of the Minimum Standards.

1.59 Security Identification Display Area (SIDA). An area of the Airport identified in the Airport Security Program (ASP) as requiring each person to continuously display on their outermost garment an airport-approved identification badge, unless under airport-approved escort.

1.60 Specialized Aviation Service Operator (SASO). Means an operator that provides any one of the services listed in Article Five of the Minimum Standards. The following are not included within this definition.

1.60.1 Employees of aircraft owners. The general criteria for employee status will be that the employer withholds income taxes, withholds and pays social security taxes and pays unemployment taxes on wages paid to the employee. Where this criterion is questioned, a Form SS-8 determination will be requested from the Internal Revenue Service.

1.60.2 Services authorized by a commercial aeronautical activity within its hangar facilities for aircraft owned or leased by its subleases. Such authorization will be provided in writing on a form provided by the Authority.

1.61 Sterile Area. That portion of the Airport that provides passengers access to boarding aircraft and to which access is controlled through the screening of persons and property in accordance with federally required and approved security procedures and programs.

1.62 Sublease. A lease granted by an Airport lessee to another entity of all or part of the property leased from the Authority, where on a sole or joint lease basis.

1.63 Taxilane. The portion of the Airport used for aircraft access between taxiways, hangars, and aprons as shown on the ALP.

1.64 Taxiway. A defined path, usually paved, over which aircraft can taxi from one part of an airport to another (excluding the runway) as shown on the ALP.

1.65 Terminal Area. The passenger terminal proper, aircraft ramps, baggage-handling facilities, vehicular parking spaces, including rental car areas, roadways, water, sanitary sewer, storm sewer, gas, electrical, cable TV and other areas and facilities the primary function of which is to serve the terminal and the operations of scheduled air carriers.

1.66 Tie-Down. The area, paved or unpaved, suitable for parking and mooring of aircraft wherein suitable tie-down points have been located.

1.67 Through the Fence or Off-Airport Access. Operations that are conducted off the actual Airport property that have aeronautical access to any portion of the Airport's runway or taxiway system through a written agreement or permit with the Authority.

1.68 Toxic Chemicals. Any substance or material subject to Section 313 of EPCRTKA (42 U.S.C. §11002(a)(2)) or the Toxic Substances Control Act, 15 U.S.C. §2601 et seq., or any comparable Environmental Law.

1.69 Transient Aircraft. Any aircraft utilizing the Airport for occasional transient purposes and which is not based at the Airport.

1.70 TSA. Transportation Security Administration.

1.71 UAS. An unmanned aircraft system (also referred to as a drone) that is operated without a human pilot onboard. Instead, the UAS is controlled by an operator on the ground.

1.72 sUAS. Small unmanned aircraft systems weighing less than 55 pounds.

1.73 Vehicle Service Road or Perimeter Roadway. A designated roadway for vehicles in a non-movement area as shown on the ALP.

2. INTRODUCTION.

2.1 Purpose. These Rules and Regulations, and any amendments thereto (the "Rules"), are adopted under authority of K.S.A. 27-315 et. al. and Salina Code Section 4-19. They are designed to protect the public health, safety, interest, and general welfare at the Salina Regional Airport (the "Airport") and to restrict or prevent any activity, which would interfere with the safe, orderly and efficient use of the Airport by passengers, operators, tenants, and other users.

These Rules shall not excuse any entity from performing any obligation it may have under any lease, license or permit with the Authority, whether in existence on the date of the adoption of these Rules or entered into at any time thereafter.

2.2 Applicability, Compliance and Conditional Use of the Airport. Any permission granted directly or indirectly, expressly or by implication, to any entity or individual to enter upon or use the Airport (including aircraft operators; vehicle operators; aircraft crewmembers and passengers; the general public; spectators and sightseers; occupants of private and commercial vehicles; officers, employees, customers, vendors, and suppliers of operators and lessees; entities doing business with the Airport, their contractors, subcontractors, and licensees; and all other entities) is conditioned upon assumption of responsibility to fully and completely comply with these Rules, as well as applicable provisions of the Airport Minimum Standards, Airport Certification Manual (ACM), Airport Security Plan (ASP), Airport Emergency Plan (AEP), and all applicable

regulatory measures that may be promulgated by any governing body or agency having jurisdiction at the Airport.

2.3 Enforcement.

2.3.1 The executive director may remove or evict from the Airport any person who violates any rule prescribed herein, or any applicable statute, rule or regulation of the federal government or the State of Kansas, or ordinance of the City of Salina, and may deny use of the Airport and its facilities to any such person if it is determined by the executive director that such denial is in the public interest.

2.3.2 Pursuant to Salina Code Section 4-19, it shall be unlawful for any person to violate these Rules. Any person violating any of the rules and regulations shall be guilty of a misdemeanor and subject to prosecution and fine for violation of City ordinances, which contain provisions for enforcing these rules and regulations.

2.4 Variance or Waiver. The executive director may vary from the provisions of these Rules at any time when circumstances may require in the interests of public safety. Any variance shall be in writing and shall not constitute a waiver or modification of any of the provisions herein for any purpose except as to the particular operator/user and the particular provision, which is the subject of the variance and only for so long as the circumstances warranting the variance exist.

2.5 Administrative Review and Court Proceedings.

2.5.1. Any person who is adversely affected by any determination made by the Authority, or on behalf of the Authority by the executive director, to deny, suspend, terminate or revoke any license or permit to operate or conduct any commercial activity on the Airport, may petition the Board in writing for a hearing concerning such determination no later than thirty (30) days after having received written notification of the determination. Compliance with the provisions of this section shall be a jurisdictional prerequisite to any civil action brought by such person under the provisions of this section, and failure of compliance shall forever bar any such action.

2.5.2. The Board may hold a hearing on the petition themselves or, in their sole discretion, may designate a hearing officer with Authority to hold such hearing or hearings.

2.5.3 Any such petition shall be in writing, filed with the Board, and the facts alleged shall be submitted under oath or affirmation. Unless the determination was made on the basis of public safety, the effectiveness of determination shall be stayed pending a final determination under paragraph 2.5.5 below.

2.5.4 Additional facts may be submitted under oath or affirmation at a hearing scheduled by the Board or the designated hearing officer. Notice of the proceedings shall be in accordance with rules and regulations issued by the

Board. The petitioner shall bear the burden of proof, and the standard of proof shall conform with that in civil, non-jury cases in state district court.

2.5.5 After hearing, or consideration of such additional submittals as they may permit or require, the Board or the hearing officer shall make a final determination. Such final determination shall be considered a final order of the Board and subject to judicial review pursuant to the Act for Judicial Review and Civil Enforcement of Agency Actions, K.S.A. 77-601 et seq. (KJRA).

3. GENERAL RULES AND REGULATIONS.

3.1 Abandoned, Derelict or Lost Property. Property including, without limitation, Aircraft, vehicles, equipment, machinery, baggage, or personal property shall not be abandoned on the Airport. Abandoned, derelict, or lost property found in public areas at the Airport shall be reported to the executive director. Property unclaimed by its proper owner or items for which ownership cannot be established will be handled in accordance with applicable law. Nothing in this section shall be construed to deny the right of operators and other lessees to maintain "lost and found" service for property of their customers and/or employees.

3.2 Accidents or Incidents. In addition to other appropriate notifications and actions, accidents resulting in damage to property, injury requiring medical treatment, or interference with normal Airport operations shall be promptly reported to the executive director, in addition to other appropriate notifications.

3.3 Airport Liability. The Airport Authority and the City of Salina, Kansas, and their agents or employees shall not be liable for loss, damage or injury to persons or property arising out of any accident, incident or mishap of any nature whatsoever and/or from any cause whatsoever and/or from any cause whatsoever to any individual, aircraft, or property occurring on the Airport, or in the use of any of the Airport Authority facilities.

3.4 Airport Operations. The executive director, or his designee, may delay, restrict, or prohibit, in whole or in part, any operations at the Airport for any justifiable reason.

3.5 Animals. Domestic pets and animals, except certified service animals or law enforcement dogs, are not permitted on the AOA of the Airport or in the Airport passenger terminal building, unless being transferred or shipped, and then only if controlled and restrained by a leash, harness, restraining strap, portable kennel, or other appropriate shipping container. Leashes, harnesses and straps shall not exceed six (6) feet. It shall be the responsibility of the owner or handler to exercise control over the animal at all times. Owners or handlers are responsible for the immediate removal and disposal of animal waste. No person, except those authorized in writing by the executive director shall intentionally hunt, pursue, trap, catch, injure, or kill any bird or animal on the Airport. Feeding or otherwise encouraging the congregation of birds or animals on the Airport is prohibited.

3.6 Buildings and Remodeling. It shall be unlawful for any person, other than the Authority, to construct, reconstruct or remodel any building or other

improvement on the Airport without first obtaining written permission from the Authority and applicable permits from the City of Salina. Any changes, alterations, or repairs made without proper approval, and any damage resulting therefrom shall be paid for by the person responsible and in accordance with the direction of the Authority.

3.7 Commercial Activities. Commercial activity of any kind on the Airport requires the express written permission of the Authority through a specifically authorized lease, sublease, license, permit or written temporary permission, and upon such terms and conditions as they may prescribe, and the payment of any required fees. Unless otherwise provided in such document, any permission may not be assigned or transferred and shall be limited solely to the approved activity.

3.8 Compliance with Regulatory Measures. All persons occupying or using, engaging in an aeronautical activity on, or developing Airport land or improvements shall comply, at the person's or entity's sole expense, with all applicable regulatory measures including, without limitation, the Salina Regional Airport Commercial Minimum Standards, these Rules, and those of the federal, state, and local government and any other agency having jurisdiction over the Airport.

3.9 Damage to Airport Property. Any and all Airport property, real or personal, and/or facilities destroyed, broken, or damaged by accident or otherwise shall be paid for by the person responsible for the damage. Aircraft equipped with tail or landing skids or other devices, which will damage pavement or sod areas shall not be operated on the Airport.

3.10 Fire/Open Flames. Open flames of any kind are prohibited except (a) as provided in a burn permit; or (b) for open flames utilized by operators/lessees in the performance of approved aircraft maintenance. Burn permits may be issued in the discretion of the Salina Fire Department and only in compliance with applicable building and/or fire codes. Smoking and the use of any open-flame device is prohibited on any apron, or within fifty (50) feet of any aircraft, fuel truck, fueling facility, or other flammable storage facility. Any fires (regardless of the size of the fire or whether or not the fire has been extinguished) shall be reported immediately to 911. No welding/cutting activities shall be conducted on the Airport without an approved fire extinguisher and a person trained in its proper usage present for the duration of any welding/cutting activities.

3.11 General Conduct. No person shall use or otherwise conduct himself upon any portion of the Airport in any manner contrary to any posted or otherwise visually indicated directions applicable to that area. Overnight camping or lodging on the Airport is prohibited. Except for the Airport fire station, use of any facility on, or area of, the Airport for sleeping or other purposes in lieu of a hotel, motel, residence or other public accommodation is prohibited. No person shall use, keep, or permit to be used or kept, any foul or noxious gas or substance at the Airport, or permit the Airport to be occupied or used in a manner offensive or objectionable to other users for any reason. Spitting on, marking, or defacing the floors, walls, or other surface of the Airport is prohibited.

3.12 Hazardous Materials. No person shall cause or permit any hazardous material to be used, generated, manufactured, produced, stored, brought upon, or

released, on, under or about any premises, or transported to and from the Airport, by itself, its agents, employees, contractors, invitees, sublessees or any third party in violation of any environmental law, provided that, in no circumstances shall any person or entity cause or permit any extremely hazardous substance or toxic chemical to be used, generated, manufactured, produced, stored, brought upon, or released, on, under or about the Airport, or transported to and from any premises. All persons or entities shall promptly notify the Airport of any action or condition that is contrary to any prohibition in the previous sentence. Approved hazardous material must be stored in suitable containers that are properly secured. Material Safety Data Sheets (MSDS) for all hazardous materials shall be maintained on site so as to be readily available to emergency responders in the event of an emergency and for review by the Salina Fire Department. No fuels, oils, dopes, paints, solvents, acids, or any other hazardous material shall be released in storm water conveyances, drains, catch basins, ditches, the AOA or elsewhere on the Airport. Tenants and operators who generate and dispose of "Special Waste" shall comply with the requirements of 40 CFR Sections 266 & 273. Special waste includes widely generated wastes such as batteries, agricultural pesticides, mercury containing devices, hazardous mercury-containing lamps, and used oil. Used engine oil shall be disposed of only at approved waste oil stations or disposal points. Secondary containment is required for the storage of gasoline, oils, solvents, or other hazardous waste in drums or receptacles. Aviation fuels or automotive gasoline in quantities greater than five (5) gallons shall not be stored at the Airport without the prior written permission of the executive director. Any fuels must be stored in accordance with any applicable codes, regulations, and requirements for the storage of volatile fuels. No hazardous substance or pollutant shall be disposed of on the Airport or into the air at the Airport during aircraft preflight inspection.

3.13 Hazardous Material Spills. Any person who experiences overflowing or spilling of oil, grease, fuel, alcohol, glycol or any other hazardous material anywhere on the Airport shall immediately call 911. Persons involved in hazardous material incidents shall take action to prevent/minimize danger to personnel, property and the environment while awaiting arrival of the Salina Fire Department personnel. At the discretion of the Salina Fire Department, the entity responsible for the spill may be required to clean and properly dispose of the material/substance which shall be performed in compliance with all applicable federal, state, and local regulations and guidelines. In addition, the entity may be required to provide the Salina Fire Department with required documentation of proper disposal. Any costs incurred by the Authority or Salina Fire Department in such instances shall be reimbursable to the Authority and/or the Salina Fire Department by the person responsible for the spill.

3.14 Licenses, Permits, Certifications and Ratings. Operators shall obtain and comply with all necessary licenses, permits, certifications, or ratings required for the conduct of operator's activities at the Airport as required by the executive director or any other duly authorized agency prior to engaging in any activity at the Airport. Upon request, operators shall provide copies of such licenses, permits, certifications, or ratings to the Airport within 5 business days. Operators shall keep in effect and post in a prominent place all necessary or required licenses, permits, certifications, or ratings.

3.15 Painting. Doping processes, painting, or paint stripping shall be performed only in those facilities approved for such activities by the executive director and in compliance with air quality regulations, the Fire Code, and the Authority's Storm Water Pollution Prevention Plan (SWPPP), and 14 CFR Part 43.

3.16 Preservation of Property. No person shall destroy or cause to be destroyed, injure damage, deface, or disturb, in any way, property of any nature located on the Airport. Any person causing or responsible for such injury, destruction, damage or disturbance to Airport-owned property shall report such damage to the executive director and shall reimburse the Airport the full amount of repair and replacement of property. No Person shall take or use any aircraft, aircraft parts, instruments, tools owned, controlled, or operated by any person while on the Airport or within its hangars, except with the consent of the owner or operator thereof. No person shall prevent the lawful use and enjoyment of the Airport by others. Any activity which results in littering, environmental pollution or vandalism on the Airport is not permitted and violators are subject to arrest.

3.17 Signage/Advertisements. Written advertisements, signs, notices, circulars, and/or handbills may be posted or distributed only with the prior written permission of the executive director. The Airport has the right to remove any such sign, placard, picture, advertisement, name or notice in any such manner as the Airport may designate. No signage may be installed on the Airport without the prior written approval of the executive director.

3.18 Solicitation, Picketing, and/or Demonstrations. Airport users shall comply with any Airport policy regarding solicitation, demonstration, or the distribution of literature on the Airport.

3.19 Sound Amplifying Devices. Sound amplifying devices such as megaphones, public address systems, or any other device designed to amplify and broadcast the human voice over a distance, are prohibited on the Airport unless written approval from the Executive Director is given prior to their installation and use.

3.20 Special Events. Special events on the Airport require written coordination, regulation and authorization of the executive director prior to the public disclosure or advertisement of the event. Certain events may require an executed lease, operating agreement or permit with the executive director.

3.21 Through-the-Fence Activities. All "Through-the-Fence" activities may be conducted only in accordance with written agreement with the Airport Authority. No such "Through the Fence" activity shall be authorized except in strict accordance with the Authority's Minimum Standards.

3.22 Trash and Other Waste Containers. No person shall dispose of garbage, paper, refuse or other materials on the Airport except in receptacles provided for that purpose. The executive director shall designate areas to be used for garbage receptacles and no other areas shall be utilized. Tenants, operators and other users of the Airport shall not move or otherwise re-locate Airport-placed trash and waste containers. Garbage, empty boxes, crates, rubbish, trash, papers, refuse, or litter of any kind shall not be placed, discharged, or deposited on the Airport, except in the receptacles provided specifically for that purpose. The burning of garbage, empty boxes, crates, rubbish, trash, papers, refuse, or litter of any kind on the Airport is prohibited. Trash and other waste containers at the Airport shall only be used for trash generated on Airport property. Trash and other waste container areas shall be kept clean and sanitary at all times. Tenants and operators shall ensure that their trash and

waste containers are emptied with sufficient frequency to prevent overflowing, shall be cleaned with sufficient frequency to prevent the development of offensive odors, and are equipped with securely fastened lids which shall be closed and fastened at all times other than while the receptacles are being loaded or unloaded.

3.23 Use of Roadways and Walkways. No person shall travel on the Airport other than on the roadways, walkways, or other areas provided for the particular class of traffic, or occupy roadways or walkways in such a manner as to hinder or obstruct their proper use. No person shall operate any type of vehicle on the roads or walks except as designated by the executive director.

3.24 Wildlife Hazard Reduction. The executive director, and his designee, are authorized to use FAA approved wildlife hazard reduction techniques including, but not limited to, discharge of firearms on Airport property. Use of lethal reduction techniques will comply with FAA guidelines, Kansas Department of Wildlife and Parks and Federal permit and tag requirements, and will be accomplished by personnel who are trained in the use of firearms and who have an excellent knowledge of wildlife identification. The proper gun and ammunition will be used for the situation. The location in which wildlife reduction techniques will be used should be examined for safety purposes. Firearms should be discharged in a safe manner away from people and property to avoid injury.

4. SECURITY AND SAFETY.

Scheduled air carrier and public charter air carrier aircraft operators using the Airport are subject to the Airport Security Program, as may be amended from time to time. Persons in violation of TSA, FAA and/or Airport security rules, including those set forth herein and elsewhere, may be denied access to the Airport, may have access or driving privileges revoked, and/or may be fined or otherwise penalized in accordance with applicable regulatory measures. Operators who are required to provide controlled access to their facilities and/or aircraft for security reasons are responsible for ensuring that all personnel are trained on the appropriate procedures for authorizing non-employees and passengers access to their respective facilities and/or aircraft.

4.1 Restricted or Secure Areas. Restricted or secure areas on the Airport are those areas that are identified in the ASP as areas where no person is allowed access unless issued Airport identification that is recognized in the ASP.

4.1.1 No person shall enter any restricted or secure area except those persons directly engaging in work or an aviation activity that must be accomplished therein; and

4.1.1.1 Having prior authorization of the Authority or under appropriate supervision or escort; or

4.1.1.2 Employed by or representing the FAA, TSA, DHS, or recognized in the ASP as being authorized to access to certain secured areas of the Airport.

4.1.2 No person shall cause any object to be located within eight (8) feet of the Airport perimeter fence, which may assist an unauthorized individual in accessing a secure area.

4.1.3 Any gate or fence condition that would allow unauthorized access to restricted or secure areas of the Airport must be reported immediately to the executive director. Any attempts by any persons to gain unauthorized access to any such area, and any conditions that would adversely affect the safety or security of aircraft operations shall be reported immediately to the Salina Police Department and the executive director.

4.1.4 Any person who violates security related regulatory measures may be denied future entry into a restricted or secure area.

4.1.5 All persons shall wear and visibly display their approved Airport identification recognized in the ASP on their outermost garment, waist or higher, while inside a secure area.

4.1.6 Airport identification holders must notify the executive director of any entry or attempted entry to a secure area by any unauthorized person, or by any unauthorized means.

4.1.7 Any person with proper Airport identification as required by the ASP may bring a person without proper Airport identification into a secure area if the person has a valid reason for being inside the secure area and if the person is provided continuous escort by a person with proper Airport identification. A continuous escort requires that the escorted person remains in close proximity to the Airport identification holder at all times while inside the secure area. The Airport identification holder shall bear full responsibility for the actions of the person being escorted.

4.2 Sterile Area. Any persons desiring to enter a sterile area are subject to security screening.

4.3 Security Access.

4.3.1 Security gates (pedestrian or vehicular) that provide access to the AOA shall be kept closed and locked at all times, except when actually in use. All access gates to the AOA through a tenant's leased premises are Operator's/lessee's responsibility and shall be monitored and secured in a manner that will prevent unauthorized access.

4.3.2 Vehicle operators shall stop their vehicle and allow the gate to fully close before proceeding, and shall also ensure that no other vehicles or persons gain access to the Airport while the gate is in the process of closing or not fully closed. If the vehicle operator cannot prevent such access, the vehicle operator shall immediately notify the executive director and the Salina Police Department.

4.3.3 Tampering with, interfering with, or disabling the lock, or closing mechanism or breaching any other securing device at the Airport is prohibited.

4.3.4 Persons who have been provided either a code or a device for the purpose of obtaining access to the AOA shall not divulge, duplicate, release, or otherwise distribute the same to any other person.

4.3.5 Persons with authorized access to the AOA may escort an unauthorized vehicle directly to and from the immediate area around the aircraft hangar for the purpose of loading and unloading. The person with authorized access is responsible for insuring compliance with the Rules and Regulations.

5. AIRCRAFT RULES AND REGULATIONS.

5.1 Accidents or Incidents.

5.1.1 Aircraft operators involved in an incident or accident on the Airport resulting in injury or death to person or damage to property shall complete any necessary reports and forms, and comply with all applicable provisions of National Transportation Safety Board (NTSB) Regulations Part 830. The aircraft operator is responsible for all damages to property, including, but not limited to, damage to a runway, taxiway, taxilane, apron, signage, navigational aid, light or fixture.

5.1.2 An aircraft involved in an accident on the Airport may not be removed from the scene of the accident until authorized by the executive director. Once authorization to remove the Aircraft has been issued, the aircraft operator shall be responsible for the safe and prompt removal of disabled aircraft and parts within a movement area to a non-movement area.

5.1.3 Subject to the requirements of 5.1.2 above, disabled aircraft shall be removed within 30 minutes from any runway or taxiway.

5.1.4 If immediate arrangements are not made (so that the Airport can return to full operational status without unreasonable delay), the Airport may have any disabled aircraft removed, at the aircraft operator's sole risk and expense, without liability for damage arising from or out of such removal.

5.2 Aircraft Assembly. Aircraft assembly constitutes maintenance and is permitted only in areas designated for that use, or in hangars approved for that activity by the executive director.

5.3 Aircraft Cleaning. Aircraft cleaning shall be performed only in areas designated for such use and in compliance with the Airport's Storm Water Pollution Prevention Plan (SWPPP), a copy of which is on file with the executive director and is available for inspection upon request. All drainage must flow to an oil/water separator, or a collection system approved pursuant to the Airport's SWPPP.

5.3.1 All aircraft cleaning shall be done with biodegradable soap, and without the use of solvents or degreasers.

5.3.2 Cleaning practices using flammable or combustible materials are prohibited within any building or within fifty (50) feet of any building, aircraft, vehicle, fuel storage facility or fueling operation.

5.4 Aircraft Maintenance and Repair. Aircraft maintenance and repair is permitted only in areas designated by the executive director.

5.4.1 With exception of preventative maintenance (as defined in 14 CFR Part 43), maintenance and repair of general aviation aircraft shall be confined to designated areas within an FBO's or SASOs' leased premises.

5.4.2 Preventive maintenance may be performed on aircraft located on tie downs and in individual hangars, only by the owners of such aircraft.

5.4.3 Minor maintenance of air carrier aircraft (as defined by 14 CFR Part 43) may be performed at the gate positions in the passenger terminal area. For all other work, the aircraft must be moved to an area designated by the executive director.

5.4.4 Aircraft painting shall be performed only in hangars approved for that activity by the executive director.

5.5 Aircraft Operations.

5.5.1 Operating an aircraft in a careless, negligent, or reckless manner; in disregard of the rights and safety of others; without due caution and care; or at a speed or in a manner which endangers, or is likely to endanger persons or property of any entity, is prohibited.

5.5.2 Aircraft operators shall obey all pavement markings, signage, and lighted signals unless instructed otherwise by the executive director.

5.5.3 Operating an aircraft constructed, modified, equipped, or loaded as to endanger, or be likely to endanger persons or the property of any person, is prohibited.

5.5.4 Experimental flights or ground demonstrations shall not be conducted on the Airport without the prior written permission of the executive director.

5.5.5 The starting, positioning, or taxiing of any aircraft shall be done in such a manner so as to avoid generating or directing any propeller slipstream or engine thrust or rotor wash that may endanger or result in injury to persons or damage to property.

5.5.6 Airborne radar equipment shall not be operated or ground-tested in an area where the directional beam of such radar, if high intensity (50 KW or greater output), is within three-hundred (300) feet or, if low intensity (less than 50 KW output), is within one-hundred (100) feet of another aircraft, an aircraft refueling operation, an aircraft refueling vehicle, or a fuel storage facility. No person shall operate radar equipment installed in an aircraft when such aircraft is

in a hangar or parked in such a position and location so as to endanger personnel.

5.5.7 Aircraft engines shall not be started within, and aircraft shall not be taxied into, out of, or within, any structure on the Airport except for structures designed for engine run-ups, such as a hush house or a test stand.

5.5.8 Aircraft shall only be taxied or towed on hard-surfaced runways, taxiways, taxilanes, and aprons.

5.5.9 Aircraft operators shall not taxi an aircraft at the Airport at a speed greater than is reasonable and prudent under the conditions with regard for actual and potential hazards and other aircraft so as not to endanger persons or property. Taxiing aircraft shall yield the right-of-way to any emergency vehicle.

5.5.10 The runway aircraft weight limitations for the Airport (FAA Gross Weight evaluation) set forth in the FAA Facility Directory shall not be exceeded without the prior approval of the executive director. Aircraft operators shall not land, take off, taxi, or park an aircraft on any area that has been restricted to a maximum weight bearing capacity of less than the weight of the aircraft. It shall be the aircraft operator's responsibility to bear the expense of repair for any damage to the Airport's runways, taxiways, or aprons caused by excessive aircraft weight loading.

5.6 Aircraft Parking and Storage.

5.6.1 No FBO or SASO authorized to provide aircraft storage to the public shall require procurement of fuel or other supplies or services from a specific source as a condition of aircraft storage.

5.6.2 Aircraft shall be parked only in those areas designated for such purpose and shall not be positioned in such a manner so as to block a runway, taxiway, taxilane or fire hydrant, or obstruct access to hangars, parked aircraft, or parked vehicles.

5.6.3 Aircraft operators shall ensure parked and stored aircraft are properly secured as set forth in FAA AC 20-35C. Parked or stored helicopters shall have braking devices or rotor mooring blocks applied to the rotor blades. Moored lighter-than-air aircraft shall have at least one person monitoring the safety of the mooring at all times.

5.6.4 All air carrier aircraft loading and unloading at the passenger terminal must be parked at designated gate positions. General aviation aircraft are not permitted to enter in the SIDA, or the air terminal parking apron, except by special permission granted by the executive director.

5.6.5 Upon request of the executive director, the operator of any aircraft parked or stored at the Airport shall move the aircraft to the location and/or position on the Airport identified by the executive director. In the event the aircraft operator refuses, is unable or unavailable, the executive director may

move the aircraft to the area at the risk and expense of the aircraft operator without liability for damage that may arise from or out of such movement.

5.7 Tie-Down Rules and Regulations.

5.7.1 The Authority reserves the right to modify the conditions of aircraft tie-down procedures at any time.

5.7.2 The Airport Authority may charge for airplane tie-down according to the Airport's rates and charges schedule.

5.7.3 The Authority or the City will not be responsible for property loss, or damage, due to any condition, or injuries sustained by reason of customers use of tie-downs and Airport facilities.

5.7.4 The FBO or owner operator will provide tie-down ropes, chains, cables, rings, blocks, and space; however, it shall be the responsibility of the customer to insure that the aircraft is properly secured and all unattended aircraft shall be properly secured and tied down to prevent damage to property.

5.8 Airworthiness. No aircraft shall remain on the Airport in excess of 90 days unless such aircraft is registered by FAA, certificated and in airworthy condition.

5.9 Engine Run-Ups. Aircraft shall not commence run-ups so that the engine blast is directed at persons, other aircraft, hangars, shops or other vehicles. Extended run-ups shall only be performed in designated areas so as to minimize impact to persons, other aircraft, and businesses.

5.10 Preferred Calm Wind Runway. Operators of aircraft based at the Airport shall become familiar with and, consistent with safe operating procedures for the aircraft, shall adhere to the Noise Abatement Plan developed for the Airport, copies of which are available at the Authority administrative offices. The preferred calm wind (5 knots or less) runway is Runway 35.

5.11 Landing and Take-Off Operations for Fixed Wing Aircraft. Fixed wing aircraft taking off or landing at the Airport shall do so only from designated runways. Landing aircraft shall clear the runway as soon as practicable, taxiing ahead to the nearest turn off.

5.12 Passengers and Cargo. Passengers and cargo shall be enplaned/deplaned only in areas designated for such activities.

5.13 Helicopter Operations.

5.13.1 All helicopters at the Airport shall take-off, land or taxi only from established and recognized parking pads, designated ramps or airport taxiways and runways. Helicopters shall park only in the areas designated for such operations.

5.13.2 Helicopters shall not be operated within two hundred (200) feet of any area where light aircraft are parked or operating, and are prohibited from

landing, taking off, or air taxiing between structures less than one-hundred and twenty (120) feet apart, unless such area is specifically established for helicopter operations.

5.13.3 Helicopters shall not be taxied, towed, or otherwise moved with rotors turning unless there is a clear area of at least forty (40) feet in all directions from the outer tips of the rotors.

5.13.4 Trailers or dollies shall be utilized to tow helicopters to parking pads for flights. Helicopter tow vehicles and trailers shall not be left at Airport public-use parking pads, and shall be stored at a location designated by the executive director.

5.14 Specialized Aeronautical Activities.

5.14.1 Ultralight aircraft operations are prohibited at the Airport without prior written approval from the executive director in accordance with paragraph 2.4 if the person proposing such activity demonstrates to the executive director that ultralight aircraft operations may be conducted on the Airport in a safe manner without interference with other aeronautical activities.

5.14.2 Hot air balloon operations, parachute drops, banner or glider towing, use of motorless aircraft, and the aeronautical transport of radioactive or hazardous materials are prohibited on the Airport without the prior written approval from the executive director. Approval may be granted by the executive director if the person proposing such activity demonstrates to the executive director that such activities may be conducted on the Airport in a safe manner without interference with other aeronautical activities.

5.14.3 Private, non-commercial UAS operations are prohibited at the Airport. Commercial UAS operations are permitted at the Airport with the prior written approval from the executive director in accordance with paragraph 3.7 and 3.8 if the person proposing such activity demonstrates to the executive director that UAS operations may be conducted on the Airport in a safe manner without interference with other aeronautical activities.

6. MOTOR VEHICLE RULES AND REGULATIONS.

6.1 Air Operations Area (AOA).

6.1.1 As determined by the executive director all vehicles operating on the AOA must carry an Authority issued gate card and/or AOA vehicle permit; shall always yield the right of way to Aircraft, emergency vehicles or equipment, and pedestrians; and shall not be operated in such a manner or within such proximity of an aircraft as to create a hazard or interfere with the safe operation of aircraft.

6.1.2 Prior to operating vehicles on the AOA, all vehicle operators shall complete the Airport Ground Vehicles/Runway Incursion Prevention Driving Program.

6.1.3 The executive director may restrict vehicles to certain portions or segments of the AOA. Such restrictions shall prohibit vehicle operations outside designated areas.

6.1.4 The recreational use of all-terrain vehicles, three-wheelers, scooters, motorcycles, mini-bikes, go-carts, roller skates/blades, skate boarding, Heelys, or other wheeled shoes, and the recreational use of bicycles is not permitted.

6.1.5 Unless otherwise posted, vehicles, except emergency vehicles responding to an emergency, shall not be operated on the AOA at speeds in excess of fifteen (15) miles per hour.

6.1.6 Tugs and baggage carts shall be returned to designated storage areas immediately following unloading.

6.2 Movement Area.

6.2.1 No vehicles except Airport vehicles, FAA vehicles, or emergency vehicles are permitted within the movement area without the prior written approval of the executive director.

6.2.2 Unless escorted, all vehicles operating in the movement area shall be equipped with a functioning two-way radio capable of communicating on the proper aeronautical frequencies (ranging from 118.00 to 136.9 MHz). A vehicle without a two-way radio capable of communicating on such frequencies may enter the movement area provided that such vehicle is escorted at all times in the movement area by an authorized escort having radio contact with SLNATCT. In the event a vehicle in the movement area experiences radio failure, it must use, light gun communications procedures with SLN ATCT.

6.2.3 FBO's granted a non-exclusive use license and permitted by written lease agreement to park and service aircraft within a general aviation Apron area, as that area is defined by the written lease agreement, are prohibited from traveling outside the general aviation apron area with follow-me vehicles. Operation of follow-me vehicles beyond a general aviation apron area, as defined by the lease agreement, will result in a suspension of the non-exclusive license for a minimum of seven (7) days.

6.3 Operator Licensing and Permit. Vehicle operators must have a valid state vehicle operator's license of the class needed for the vehicle being operated and evidence of insurance (as required by State law and the Airport) to operate a vehicle on the Airport. Evidence of valid title or current rental/lease agreement for the vehicle shall be kept in the vehicle and available for inspection.

6.4 Parking and Standing.

6.4.1 Vehicles shall be parked only in those areas designated for such purpose. Vehicles shall not be parked or stopped:

6.4.1.1 In such a manner so as to obstruct a parking lot lane, driveway, roadway, walkway, crosswalk, fire lane, runway, taxiway, taxilane, or obstruct access to hangars, parked aircraft, or parked vehicles;

6.4.1.2 In any space marked for parking in such a manner that the vehicle occupies more than one marked space;

6.4.1.3 Within a bus stop, taxicab, or commercial vehicle zone (except for vehicles authorized by the Airport to use such areas);

6.4.1.4 On the side of a roadway;

6.4.1.5 On the roadway side of any stopped or parked vehicle (double parking);

6.4.1.6 Within fifteen (15) feet of a fire hydrant or within a fire lane or restricting the access to or from the fire lane;

6.4.1.7 Within eight (8) feet of either side of a security fence;

6.4.1.8 Other than in accordance with restrictions posted on authorized signs;

6.4.1.9 Tank trucks containing aviation fuel shall not be parked less than 50-feet from all buildings. Trucks containing aviation fuel are not permitted in any hangar at any time.

6.4.2 Service vehicles (including utility company, government owned, delivery, etc.) shall park in specially reserved and marked areas or areas designated for such purpose.

6.4.3 Automobiles, motorcycles, boats, jet skis, snowmobiles, dune buggies, race cars, recreational vehicles, trailers and other vehicles may not be parked or stored on Airport property for longer than 72 hours, unless (a) parked in the passenger terminal parking lot, with payment, if applicable, had been made in advance, or (b) written permission of the executive director has been first obtained. Trailers and semi-trailers shall be disengaged from towing vehicle.

6.5 Vehicle Licensing and Equipment.

6.5.1 Except for vehicles that are exclusively used on the AOA, all vehicles shall meet proper state licensing and registration requirements.

6.5.2 Vehicles shall not be operated on the Airport unless the vehicle is in sound mechanical order; has adequate lights, horn, and brakes; and permits clear visibility from the driver's position.

6.5.3 Vehicles operating or parking inside the security fence shall be registered with the Airport and display a current vehicle permit issued by the executive director. Applications for permits shall provide the name of the owner

of the vehicle, a description of the vehicle, and evidence of insurance in the amounts established by the executive director. The permit shall be displayed on the back of the rear view mirror.

6.6 Vehicle Maintenance. Except for minor repairs that are necessary to remove such vehicle(s) from the Airport, and except as expressly provided otherwise in an agreement with the executive director, private vehicles shall not be cleaned or maintained anywhere on the Airport. Vehicles operated by commercial operators/lessees shall be cleaned or maintained only in areas designated by the executive director.

6.7 Vehicle Operations. The following shall apply to all vehicle operations on the Airport:

6.7.1 No vehicle shall be operated in a careless, negligent, unsafe, or reckless manner; in disregard of the rights and safety of others; without due caution and care; or at a speed or in a manner which endangers or is likely to endanger persons or property.

6.7.2 No vehicles shall be constructed, equipped, loaded, or maintained (or any having attached thereto any object or equipment which drags, swings, or projects) so as to endanger or be likely to endanger, persons or property.

6.7.3 Vehicles shall not be operated in any hangar unless (1) the vehicle exhaust is protected by screens or baffles to prevent the escape of sparks or the propagation of flame and (2) a vent system exists to prevent exhaust fumes from building up in the hangar.

6.7.4 Vehicle operators shall obey all posted speed limits. Vehicles shall not be operated at a speed greater than is reasonable and prudent under the conditions and having regard for actual and potential hazards, traffic, use of the street or roadway, or so as not to endanger persons or property.

6.7.5 Vehicle operators shall provide proper signals and obey all traffic lights, signs, mechanical or electrical signals, and pavement markings.

6.7.6 Vehicles that are overloaded or carrying more passengers or cargo than the amount that the vehicle is designed to carry are prohibited.

6.7.7 Vehicles used for hauling trash, dirt, or any loose material shall be operated in such a fashion as to prevent the contents of the vehicle from dropping, sifting, leaking, or otherwise escaping.

6.7.8 Except in case of emergency or operational necessity, no vehicle shall leave paved areas except in areas designated for parking by the executive director.

6.7.9 Unit hangar tenants will enter the aircraft parking ramp through the most direct access gate and depart by the same route.

6.7.10 No portion of the Airport west of the security fence that separates the Airport property from other areas of the Salina Airport Industrial Center is open to the public.

6.7.11 The following vehicles only are authorized to drive onto the Airport terminal building ramp, or other area used for parking of aircraft, to pick up or discharge personnel arriving or departing by aircraft:

6.7.11.1 Airport vehicles;

6.7.11.2 Airline vehicles;

6.7.11.3 FAA or other Federal agency vehicles;

6.7.11.4 FBO vehicles;

6.7.11.5 Military staff cars dispatched to meet military aircraft;

6.7.11.6 Emergency response vehicles in official service;

6.7.11.7 Law enforcement vehicles in official service;

6.7.11.8 Vehicles with prior written approval by the executive director;

6.7.12 Authorized vehicles on the south and north aircraft ramps will be driven along the marked and designated driving lanes.

6.8 Agricultural Vehicles. Agricultural lessees will be assigned access routes to their leased areas by the executive director. Agricultural lessees will observe the following additional restrictions and procedures:

6.8.1 No farm vehicle, truck or other equipment will be operated in the abandoned edges of runways or be used when the runway or taxiway is not in use unless prior approval has been obtained from ATC.

6.8.2 Farm equipment operators shall be alert to aircraft movements on runways and taxiways adjacent to their area of activity and shall be familiar with the light signals used by the ATCT for vehicular control and shall be equipped with functioning VHF Radio.

6.8.3 No land will be farmed, nor will farming operations be conducted, within the runway or taxiway areas as defined by FAA regulations and advisory circulars.

6.8.4 Farm equipment operators will not move cement markers for buried communications and electrical cable, or survey markers. If accidentally disturbed, these markers will be replaced at their

original location as accurately as possible.

6.8.5 No vehicles with lugs will be operated on Airport pavement.

7. TENANT RULES AND REGULATIONS. The following shall apply to all persons occupying property on the Airport, under a lease, sublease or otherwise:

7.1 Compressed Gases.

7.1.1 Oxygen or any compressed gas in a cylinder or portable tank must be secured to a fixed location or secured to a portable cart designed and approved specifically for the cylinders or tanks being secured.

7.1.2 Compressed gas cylinders or tanks must have approved and fully operational pressure relief devices installed, and shall be maintained in compliance with all applicable rules and regulations.

7.1.3 Cylinders or tanks not in use shall have an approved transportation safety cap installed.

7.2 Fire Prevention.

7.2.1 Tenants shall be responsible for ensuring that good fire prevention practices/procedures are followed at all times.

7.2.2 Tenant shall provide proper, adequate, inspected, certified and readily accessible fire extinguishers (that are approved by fire underwriters) for the particular hazard involved or associated with the activity being conducted. Fire extinguishers shall be maintained in accordance with the Fire Code.

7.2.3 Logs showing the date of last inspection shall be attached to each unit or records acceptable by fire underwriters shall be kept showing the status of such equipment.

7.2.4 When either the executive director, or his designee, or the Fire Inspector of the Salina Fire Department has notified in writing any lessee, tenant, or other person on the Airport, to correct or eliminate any fire hazard for which such lessee, tenant, or other person is responsible, the person notified shall correct or eliminate such hazard in the manner and within the time prescribed in the written notification or request.

7.3 Lubricating Oils. Quantities of lubricating oils in hangars shall not exceed amounts necessary for maintenance purposes and operation of equipment. Storage of combustible liquids in hangars in excess of five (5) gallons requires prior approval from the Salina Fire Department.

7.4 Storage of Materials and Equipment. Tenants shall store, stack, box, or bag material (or equipment) in such manner as to preclude creating any hazard, obstructing any operation, or littering. Storage of materials or equipment is prohibited outside of hangars or other buildings, without approval of the executive director.

7.5 Telecommunications. No person shall operate any communications equipment (wired or wireless) on the Airport in a manner that will cause interference to operations of the Airport. Upon any notification from the Authority, the FAA or the police or fire departments of any interference caused by operator's or lessee's operation, the person notified shall cease such communications operations, transmissions and uses on the Airport. Such person shall not resume communications operations until the executive director has provided notice in writing.

7.6 FAA Airport Activity Survey. Tenants shall annually complete and submit a USDOT – Federal Aviation Administration Airport Activity Survey (FAA Form 1800-31) that documents air taxi/commercial passenger enplanements for each calendar year. Tenants shall provide a courtesy copy of the completed and submitted FAA Form 1800-31 to the Executive Director.

7.7 Annual Service Report. Tenants shall annually report on certificated air carrier aircraft that it services. The report shall detail the aircraft manufacturer, make and model and aircraft owner. This information will be used by the Authority to determine the Authority's eligibility for federal airport improvement program grants and will only be shared with the FAA.

7.8 Based Aircraft Report. Tenants shall annually report on all aircraft based at the Airport. The report shall detail the aircraft manufacturer, make, model, registration number, insurance information, and aircraft owner.

8. AIRCRAFT FUEL STORAGE, HANDLING AND DISPENSING.

8.1 Permit. Fuels in quantities greater than five (5) gallons shall only be stored and dispensed on the Airport by persons having a permit with the executive director authorizing the fueling operation and approving the fuel storage facilities, refueling vehicles, and related equipment. This includes any third-party, public use, self-serve fueling facilities.

8.2 Best Practices.

8.2.1 Operators shall conform to the standards set forth in FAA Advisory Circular 150/5230-4A, "Aircraft Fuel Storage, Handling and Dispensing on Airports," the "Fuel Handling Safety Guidance" issued the FAA; NFPA 407; and the Fire Code, as they may be amended from time to time.

8.2.2 Operators owning and operating fuel tanks, refueling vehicles, and/or portable oil containers shall comply with the requirements of the Oil Pollution Prevention regulations (40 CFR 112) including provision of secondary containment for loading/unloading areas and refueling vehicle parking areas. Each operator shall comply with all provisions of the Airport Stormwater Pollution Prevention Plan (SWPPP). Operators who wish to provide their own SWPPP shall submit such plans to the Authority for review to verify that such plans are in conformance with the existing plans for the Airport.

8.2.3 Operators must provide their own Spill Prevention Contingency and Control Plan (SPCC), and file a copy with the executive director.

8.2.4 Operators shall comply with all provisions of the Airport Certification Manual (ACM).

8.3 Equipment.

8.3.1 Refueling vehicles, fueling pumps, meters, hoses, nozzles, funnels, fire extinguishers, and bonding devices used during fueling operations shall be maintained in a safe operating condition and in good working order and repair at all times.

8.3.2 Operators shall have on hand at all times sufficient spill control equipment including containment booms, socks, pillows, pads, etc. to control spills and Releases occurring on their leasehold. Cleanup of non-fuel spills and Releases is the responsibility of the operator. Operators shall store contaminated spill control equipment in containers in accordance with applicable sections of 40 CFR 262 and 49 CFR 172-173 until proper disposal can be effected. At a minimum;

8.3.2.1 Each refueling vehicle shall have a "first responder" spill kit; and

8.3.2.2 Each fuel storage facility shall maintain a spill kit with an appropriate supply of, but not limited to, spill socks, pillows, pads, wipes, disposable bags with ties, and USDOT approved containers. All spill control items shall be rated for hydrocarbon use.

8.3.3 Operators may not install self-service fueling islands or similar facilities without the prior written approval of the executive director.

8.4 Fuel Flowage Fees.

8.4.1 A fuel flowage fee is payable to the Authority, as set forth in the Airport rates and charges schedule as amended from time to time, for all aviation fuel (including mogas) delivered to operators at the Airport, and to all Through-The-Fence permittees (collectively, for purposes of this paragraph 8.4 alone, "Operators.").

8.4.2 Each operator shall pay the fuel flowage fee for all fuel per terms of its written agreement with the Authority.

8.4.3 Operators shall keep and maintain adequate books and records to establish and verify the accuracy of the fuel volumes reported to the Authority. The Authority's authorized representative shall have the right, to examine, cause to be examined, inspect or audit an operator's books and records for the purpose of verifying the accuracy of the fuel volumes reported by an operator.

8.5 Fuel Storage Facilities.

8.5.1 Plans for fuel storage and installation shall be submitted to the executive director for written approval prior to any installation. All facilities,

equipment, and installation shall be in conformance with all local, state, and federal requirements.

8.5.2 The maintenance and operation of fuel storage facilities shall meet NFPA 30, NFPA 407, UL 2085 and FAA regulations and advisory circulars, and shall be approved by all agencies that regulate the maintenance and operation of fuel storage facilities. The installation of all tanks or facilities shall meet the requirements of the Fire Code.

8.5.3 Operator shall have a written Spill Prevention Control and Countermeasures Plan that meets regulatory measures for their fuel storage facilities. A copy of the Spill Prevention Control and Countermeasures Plan shall be filed with the executive director.

8.5.4 All security gates leading into fuel storage areas shall be kept closed and locked at all times except when actually in use.

8.6 Fueling Operations.

8.6.1 All fuel handled on the Airport shall be treated with due caution and care with regard to the rights and safety of others so as not to endanger or likely to endanger, persons or property.

8.6.2 Persons engaged in the fueling, defueling, and oil servicing of aircraft or vehicles, the filling of refueling vehicles or dispensing equipment, or the dumping or pumping or loading of aviation fuels or oils into or from fuel or oil storage facilities shall exercise care and extreme caution to prevent overflow of fuel or oils and/or spills.

8.6.2.1 In the event that a spill should occur of any magnitude, associated activities shall cease immediately. The responsible party of such spill shall take appropriate action to properly contain and clean up the spill, and applicable provisions of Section 3.13 of these Rules shall be followed.

8.6.3 A properly trained operator shall be present at all times while fuel delivery vehicles transfer fuel into or out of any fuel storage facility. All fueling shall be performed by qualified operators.

8.6.3.1 The operator shall remain within the immediate vicinity, in close proximity to, and in direct view of all operating controls and equipment; and

8.6.3.2 The operator shall not leave the discharge end of any hose or hoses unattended at any time while the transfer of fuel is in progress; and

8.6.3.3 The operator shall not block open, disengage, bypass, and/or deactivate the deadman control or mechanism at any time while fueling or transferring fuel. Hold-down devices are prohibited.

8.6.4 No fueling activity shall take place unless adequate fire extinguishing equipment and personnel trained in the use of such equipment are present.

8.6.5 Aircraft shall not be refueled or defueled with one or more of its engines operating or while the aircraft is located inside any structure.

8.6.6 Pouring or gravity transfer of fuel from containers is prohibited. Approved pumps, either hand or power operated, shall be used when aircraft are fueled from containers greater than five (5) gallons.

8.6.7 Refueling vehicles shall be positioned so that the vehicle has clear egress at all times.

8.6.8 Not more than one refueling vehicle shall be positioned to refuel each wing of an aircraft and not more than two refueling vehicles shall be positioned to service the same aircraft.

8.6.9 Aircraft or vehicles shall not be fueled or defueled if an electrical storm is in progress or within close proximity of the Airport.

8.6.10 When aircraft are being fueled or defueled, the refueling vehicle shall be bonded to the aircraft to equalize the electrical potential between the refueling vehicle and the aircraft.

8.6.11 All hoses, nozzles, spouts, funnels, and appurtenances used in fueling and defueling operations shall comply with NFPA 407 and shall be equipped with a bonding device to prevent ignition of volatile liquids.

8.6.12 Aircraft shall not be fueled or defueled while passengers are on board unless a passenger-loading ramp is in place at the aircraft cabin door, the door is in the open position, and an attendant is present at or near the door.

8.6.13 Only essential personnel engaged in fueling or defueling shall be permitted within 50-feet of fuel tanks or aircraft during such operations.

8.6.14 If an incapacitated medical patient is on board the aircraft during fueling operations, the Airport ARFF or Salina Fire Department personnel and equipment must be available at the scene.

8.6.15 For single point fueling, deadman controls or mechanism shall be utilized and shall remain in good working order at all times.

8.6.16 Refueling vehicles (including fuel tankers) shall use only the entrance, exit, and route designated by the executive director during the transportation and delivery of fuel.

8.6.17 Refueling vehicles (including fuel tankers) are not permitted on runways, taxiways, and taxilanes without specific approval from the executive director.

8.6.18 Truck to truck fuel transfers are prohibited with the exception of certain maintenance operations and remote fueling operations approved by the executive director.

8.6.19 18-wheeler tractor-trailers delivering fuel on the Airport may only deliver into approved storage tanks.

8.7 Location of Fueling Operations Relative to Other Activities, Equipment and Structures.

8.7.1 Aircraft fuel handling shall be conducted outdoors and with the refueling vehicle and aircraft being at least fifty (50) feet from any hangar, building, and any combustion and ventilation air-intake to any boiler, heater, or similar facility or as approved by the Salina Fire Department.

8.7.2 Unless a secondary containment is being used, aircraft fuel handling shall take place on an impervious surface and at least fifty (50) feet from any storm water conveyances, drains, catch basins, ditches.

8.7.3 No person shall operate any radio transmitter or receiver (or switch electrical appliances on or off in an aircraft) within fifty (50) feet of and for the duration of fueling or defueling activity unless said radio transmitter or receiver is designed for such environment.

8.7.4 During fueling operations, no person shall use any material or equipment that is likely to cause a spark or ignition within fifty (50) feet of such aircraft or vehicle.

8.7.5 Use of matches, lighters, or any other igniting or incendiary devices is prohibited on the AOA and within fifty (50) feet of any aircraft, refueling vehicle, fuel storage facility, or any aircraft being fueled or defueled.

8.8 Off-Premises Fueling. Fueling activities shall be limited to an operator's leased premises unless the operator's lease agreement or fueling permit expressly permits off-premises fueling, and operator's levels of insurance are sufficient to cover the increased liability associated with off-premises fueling. Off-premises fueling is permitted only in designated areas.

8.9 Storage of Refueling Vehicles/Use of Fuel Containers. Refueling vehicles shall be stored outside and not less than fifty (50) feet from a building or other structure, storm water conveyances, drains, catch basins, or ditches. Refueling vehicles shall be parked in a manner that provides a minimum of ten (10) feet of separation between vehicles and any other vehicle or aircraft and a minimum of twenty (20) feet from a storm water inlet. Unless otherwise authorized by the Salina Fire Department, no more than five (5) gallons of fuel may be stored in UL approved fuel containers and all fuel containers shall be UL approved.

8.10 Maintenance of Refueling Vehicles. Maintenance and servicing of refueling vehicles shall be performed outdoors or in a building that is approved by the executive director and the Salina Fire Department specifically for this purpose.

Operators shall document and maintain vehicle maintenance and agency inspection records, which shall be made available to the executive director upon request.

8.11 Training. All personnel engaged in fueling operations shall be trained in procedures for fueling and defueling, quality control, safety, fire prevention, use of fire extinguishers, responding to fuel and oil spills, handling flammable materials, and actions to be taken in an emergency caused by a fire or fuel spill (including environmental protection). All such personnel shall receive proper training or instruction immediately upon employment and not less than annually thereafter, and records of training and qualifications of each person engaged in fueling operations shall be maintained. Training shall be performed in accordance with 14 CFR Part 139 and the Airport Certification Manual. Training records shall be made available for review and/or inspection by the executive director, the Salina Fire Department, and/or the FAA at any reasonable time.

8.12 Transient Fueling Operations. Transient fueling operations (such as seasonal firefighting and military operations) shall be subject to the inspection and approval of the executive director; pay applicable fuel flowage fees; fuel only in designated areas; and operate according to best management practices and procedures.
